Evacuation
Assembly Point ①

Map is not to scale

If there is an incident that requires evacuation, you may not receive notice. Evacuate if you feel you are in danger.

If the situation permits, Public Safety Agencies will attempt to contact you to provide detailed instructions on Evacuation Routes and where to go to receive assistance and further instructions.

You may be unable to evacuate. If you are unable to evacuate in a fire emergency, find an open space with low vegetation. Remain there until danger has passed
